Reveal

Unlock the potential of your Microsoft Data Lake

PrecisionPoint Reveal allows full access to the data locked within your Microsoft Data Lake, extracting the information you need, when you need it.

Fully secured using the Azure stack, controlled via Azure functions, offered via SaaS model, and fully automated and secured, *Reveal* will extract then deposit data into your chosen SQL Server destination, giving you full unrestricted access to do with it as you see fit. All whilst providing an ideal balance of performance, cost, and usability when compared to the options within Synapse.

Key benefits:

- Your D365 data available in SQL Server
- Data extraction SaaS 'Microservice' model
- Secured
- Governed
- Fully configurable data and scheduling requirements
- All built within Azure

Designed specifically for

Microsoft Azure
Data Lake

PrecisionPoint are leading the way in helping organisations to make faster and more informed business decisions and better manage their operation, through unlocking the data held within their MS Dynamics 365 applications and turning this into actionable business insights.
